## THREE FORTS RAZED

Moro Strongholds Stormed by American Soldiers.

A Bold Move Resulted in Over Twenty of the Insurgents Being Killed.

MANY OTHERS WERE WOUNDED

Manila, Oct. 2.—The Maciu Moros in Mindanao have offered but slight resistance to the column under Captain Pershing of the Fifteenth cavalry.

After a series of skirmishes on Monday and Tuesday of this week the Moros retreated into six forts on the shores of the lake. When a courier left Maciu yesterday for Camp Vicars, Captain Pershing was preparing to assault this last Moro stronghold.

The American column reached the former camp at Maciu Sunday night. On Monday the Moros opened fire on them with a brass cannon and rifles from a series of new forts which had been erected since Captain Pershing's first visit to the place. The battery under Captain Wm. S. McNair scaled a ridge commanding the position of the Moros and shelled them out. The engineers under Captain Jay J. Morrow had constructed a trail over the swamp flanking the Moro position. The men of Captain Pershing's column crossed the swamp by the trail and captured and destroyed three of the Moro forts. The Moros stood but a short while and ran as soon as the artillery opened on them.

Captain Pershing has been ordered to destroy the forts until the Moros make peace. Twenty Moros were killed and many were wounded. There were no casualties among the Americans.

The letter of General Sumner, in command in Mindanao, to the Maciu sultans, has been delivered.

## STRIKE GROWS WORSE

Some Mines Wrecked or Rendered Useless by Strikers.

It Is Believed at Washington That Efforts to Settle Anthracite Strike Will Succeed.

LATE NEWS OF TODAY BY WIRE

HOW IT LOOKS IN SOME PLACES.

Tracy City, Oct. 2.—The strike situation seems to grow worse instead of better. All the private mine operators have been asked to stop shipping coal and as some failed to do so, their mines were wrecked or rendered useless. The miners at Clause Hill are out, and no coal is being shipped over the Tracy City branch road.

LATEST FROM WASHINGTON.

Washington, Oct. 2.—It is believed that President Roosevelt's efforts to secure an amicable adjustment of the anthracite coal strike will be successful. President Mitchell reaches here tonight.

NEGRO LYNCHED IN ARKANSAS

Portland, Ark., Oct. 2.—Walter Sullivan, a negro who shot and probably fatally wounded D. D. Roddy at that place Saturday night, was taken from the calaboose by a crowd of five or six men and hung almost identically on the spot where the shooting of Roddy took place. After the negro was hung his body was riddled with bullets. Sullivan was confined in the city calaboose without guard and it was an easy matter for Roddy's friends to wreak vengeance on him. The identities of the men who did the lynching are unknown.

ANOTHER UNLOADED PISTOL.

Water Valley, Miss., Oct. 2.—A shocking accident occurred here which will result in the death of Mrs. Montgomery, one of the oldest and most estimable ladies of this community. While looking through some old papers she ran across an old 32-caliber derringer pistol, a relic in her family, which she had not seen for twenty years and which had not been used in that time. It did not occur to her that it was loaded and as soon as her eyes discovered it she picked it up and playfully snapped it at C. B. McMahon, a young man who boards in her house. He took the weapon from her and while examining the condition of barrels and the mechanism of the gun, it fired, without his being aware of the discharge until it was seen that Mrs. Montgomery had been wounded. The ball entered her abdomen to the left of the median line, ranged across the body and lodged in the right side of her back.

DROWNING NEAR UNIONTOWN.

Uniontown, Ky., Oct. 2.—John William Thomas, a wealthy and influential citizen of Spring Grove, this county, was drowned yesterday afternoon at Raleigh Lake, a private fishing pond near his home.

## DISASTERS OF THE DEEP.

SEVERAL AUSTRALIAN VESSELS LOST IN THE SOUTH SEAS.

Victoria, B. C., Oct. 2.—The steamer Moana brings news of the loss of several Australian vessels during gales in the South seas. The schooner Sybil of Sydney, a recruiting vessel, left the Solomon islands in April with 110 persons on board for Queensland and was never heard of again.

The steamer Quirange of Queensland was lost off the Australian coast, with all hands, numbering thirty, never having been heard of after leaving Sydney on a coasting trip.

The steamer Mambaro, a 2,000 ton steamer belonging to Buris, Philip and Co. of Sydney, in the inter-island trade, was lost off the coast of Santos by stranding on a reef, but fortunately all hands were saved and taken to Noumea by his majesty's ship Phoebe. The schooner Eclipse was lost in the Solomon islands and Father Rouillat, a French priest, was drowned.

Mr. T. M. Nance, the well known insurance agent, is still quite ill and unable to be at his desk.

## Had the Usual Row.

Frankfort, Ky., Oct. 2.—The railroad convention met yesterday afternoon. Chairman Wilkes Morgan called the convention to order, and Walter Bronston was selected by acclamation for temporary chairman, and Wm. Cromwell, of Franklin, was made secretary.

Chairman Bronston, in his speech, complimented Governor Beckham, and said that his administration had demonstrated that it is not necessary that a man should be a century old and weigh 500 pounds to be a man. This was cheered by the Beckham following.

The temporary organization was made permanent. There were no contests, and the committee on credentials had no work to do.

Frank Peake, of Shelby, placed McChord's name before the convention, and McChord was nominated by acclamation.

The platform indorses the state administration, the Kansas City platform of 1900, sympathizes with the Pennsylvania coal strikers, etc.

The report of the committee made no mention of the Kansas City platform, but Frank Peake of Shelby, offered an amendment indorsing it.

After the platform was adopted a wrangle arose over the adoption of the Peake amendment regarding the Kansas City platform. J. P. Edwards, of Louisville, made a speech, saying that if the Kansas City platform was indorsed, the gold bugs in Louisville would not vote for Judge Barker. There was a long wrangle. Chairman Bronston and most of the Lexington delegates seemed to be in favor of reconsidering and knocking out the Peake resolution.

By a vote of 198 to 176 the convention indorsed the Kansas City platform.

## FAMILY QUARREL.

BOTH CLAIMED TO HAVE BEEN HIT WITH AN AX.

Amorous Threat was arrested this morning for attacking his step-father, William Knox, with an axe and cutting his head with the weapon.

When Threat was arrested and brought to the hall he claimed that Knox had struck him with the axe but Knox was the only one injured having received a bad cut in the forehead. Threat will be given a hearing tomorrow morning. The fight was the result of a family quarrel.

THE DEMOCRATIC TICKET, AS EXPECTED, WAS ELECTED.

Atlanta, Ga., Oct. 2.—The election for governor and statehouse officials held throughout the state yesterday passed off quietly, no organized opposition having been made against the Democratic ticket, which was elected in full as follows:

Governor—Joseph M. Terrell. Secretary of State—Philip Cook. Comptroller-general—William A. Wright. Attorney general—John C. Hart. Treasurer—Robert E. Park. Commissioner of Agriculture—O. B. Stevens. School commissioner—W. B. Merritt. Prison commissioner—Thomas Eason.

## WAS A KENTUCKIAN

Commander Bronaugh Formerly of Christian County.

He Was a Distinguished Naval Officer and a Highly Esteemed Man.

HAD RELATIVES IN PADUCAH

Commander William Venable Bronaugh, who committed suicide night before last aboard the Kearsarge at the Brooklyn navy yards, was a Kentuckian. The deceased was a native of Christian county and a member of a pioneer family, was 45 years of age. He was appointed to the academy at Annapolis in 1873 by the Hon. John Young Brown, then representative in congress from the Second Kentucky district. In 1876, as a cadet, he was stationed at the Paris exposition as a representative of the naval department of the United States government.

He was graduated with high honors in 1876, and was assigned to the historic old Tennessee, under Admiral Jonett. He was at the head of a party of civil engineers during the survey of Alaska, remaining there three years and his efficient labors in this important undertaking brought him much praise. Later, he served as an officer on the Jamestown and the Portsmouth. He was next inspector of steel at the Carnegie works in Pittsburgh.

Commander Bronaugh was married in January 1885, to Miss Mary Edmunds, of Hopkinsville. One daughter was the result of this union, Miss Mary Bronaugh.

Mrs. Bronaugh and her daughter joined Commander Bronaugh in Brooklyn only a few days ago after spending the summer in Hopkinsville.

One of Commander Bronaugh's fine achievements while in command of the vessel was to sink the Alfonso XII in a sea duel. Commander Bronaugh was despatched with the Castine through the Suez Canal to the Philippines, and he commanded the landed force that captured the island of Mindanao.

During the last two years he had been stationed at the Brooklyn navy yard and in October, 1901, was assigned to the battleship Kearsarge as navigator, and later was placed in charge of the vessel as executive officer.

He was a third cousin of Mr. H. O. Bronaugh of Paducah.

## CONTEST IN FULTON

The "Wets" to Make a Fight Against the Local Option Election.

Retained Paducah Attorneys to Fight the Case—Notice of Contest Filed.

UNLAWFUL METHODS CHARGED

The "wets," who on the face of the returns were defeated in the local option contest at Fulton September 23, have decided to contest the election and have retained Messrs. Wheeler and Hughes of the city to fight the case.

The plaintiffs in the contest will be John Nichols and fifteen others, and the notice of contest, which is in itself a petition, was filed by the attorneys yesterday afternoon, and is quite voluminous.

The local option election was held in Fulton, Ky., and the First magisterial district, including the city, on September 23 after a bitter fight. The temperance people claimed the victory by about 50 votes, and there were several arrests, following the balloting, for fraud and false swearing.

The grounds for the contest are that the temperance people used fraud and intimidation and refused to allow legal voters to vote in the election.

The hearing of the case comes up the fourth Monday after the filing of the petition, and the result will be watched with great interest in this section of the state. The saloon licenses ran out yesterday, and there will be no more saloons in Fulton unless the election is declared void by the courts.

## WAS NOT KIDNAPPED

It is explained by Mr. James Sayre of Mechanicsburg that his son David did not kidnap Mrs. Edith Jeger's 3 year old child yesterday from her home on North Sixth street. She complained at police headquarters that the child had been kidnapped. Mr. Sayre states that the child, who formerly lived at his home, cried to return with his son when the latter was at the girl's house, and he brought it. When the mother went after it it was given up without a protest.

Black of Chicago delivered the oration and Governor Durbin accepted the monument.

## SOLDIERS PAY

It Will be Distributed in Checks Sent out Shortly.

Some Difference of Opinion as to What Paducahans Are Entitled to.

There seems to be some difference of opinion in regard to the pay that was received from Washington for Kentucky soldiers a short time ago, amounting to \$120,068 as a balance owed by the government for services during the Spanish-American war. It is announced from Frankfort that the money will be sent out by Governor Beckham in the form of checks.

Captain B. B. Davis, of Paducah, formerly of Co. K, is of the opinion that the members of Co. K, the local company, will receive money for several days that they were in Paducah after having been mustered into state service and were here awaiting orders.

Lieutenant Bebout, however, says that the boys have been paid in full from the time they were mustered into the state guards here by Colonel Jounett Henry until mustered out. The difference is that Captain Davis says they have been paid from the time they left Paducah, while Lieutenant Bebout, who kept the payrolls, claims they were paid from the time they were mustered in, which was several days before they left Paducah.

There are a few, however, who have money coming to them, because they were transferred or discharged before the company was mustered out, and their names were not on the pay roll when the final settlement was made, they having been paid from the time the troops were mobilized.

## HIGH SCHOOL WON.

THE TEACHERS AND PUPILS TO CELEBRATE THE LIBRARY VICTORY.

The pupils of the High school are preparing a program to celebrate the victory in the library contest. This will be done later but the programme will be arranged and carried out as soon as possible. There will be a musical features, speeches and other usual numbers and will probably be rendered on a Friday afternoon shortly.

The teachers are busy at present making out their monthly reports for the pupils' parents and the month has been more than satisfactory both in attendance and in work. The pupils have been thoroughly settled down to hard work and the best obtainable is gotten from them in the way of work.

## SOLD HIS WIFE FOR \$2.

TRAVELER CONVICTED FOR OBTAINING MONEY UNDER FALSE PRETENSES.

Salem, Ill., Oct. 2.—A very peculiar lawsuit was disposed of yesterday in Justice Somerville's court at Odin. Two men and their wives came through this locality bound for Oklahoma. One of the wives was much younger than her husband and they quarreled occasionally. While stopping at Odin to allow their horses to rest the couple had one of their rows and the husband offered to sell her to a farmer in that vicinity for \$2. The farmer had grown weary of single blessedness and wanted a wife. He said he liked the specimen offered and produced the required sum. The irate husband commanded the wife to climb in the farmer wagon and go with him. She obeyed and the farmer drove off. In less than one hour, however, the woman left her new-found mate and shortly afterward the farmer returned and demanded either the woman or the \$2. Not getting either, he swore out a warrant charging the stranger with procuring money under false pretenses.

After the evidence had been heard Justice Somerville decided that a swindle had been perpetrated and held the parties to the grand jury, but added that he would stay the sentence if the \$2 were returned and all costs paid and they would immediately get out of town. This was agreed to and the case was promptly settled.

## DEATHS BY ACCIDENT.

STATISTICS PREPARED SHOWING THE PERCENT OF MORTALITY.

Some interesting statistics are culled from the United States census reports relative to accidental deaths. For the twelve months ending May 31, 1900, 57,513 accidental deaths were reported. Of this number 43,414 were males and 14,099 females. In the period mentioned the proportion of deaths from accidents and injuries was 57.6 in 1,000 deaths from all known causes, as against 53.7 in 1890. Practically 6 per cent of all deaths from causes known and unknown are due to accidental injuries, at least that is the ratio one obtains by contrasting the 57,513 deaths from accidental injuries with the 1,039,094 deaths from all causes that occurred in the census year 1900. These data are not complete for the country as a whole, reliable figures being furnished only by the so-called registration states, Connecticut, Maine, New Hampshire, Massachusetts, Rhode Island, Vermont, New York, New Jersey and the District of Columbia. In these states the death rate from accidents and injuries was 96 per 100,000 of population, or 27,649 persons, an increase of 4.1 per 100,000 of population. Fatal accidents are more liable to occur in cities than in rural parts. Deaths due to accidents and injuries were highest among those whose mothers were born in Italy, and lowest among those whose mothers were born in the United States, 119.5 and 62.7 per 100,000 of white population respectively. Another very interesting fact is that the death rate due to accidents is higher among those from 15 years to 44 years of age, or of those under 15 years. But the average age at death from accidents is about 33.5.

Very low excursion rates and "Circle" tour tickets are on sale during the summer months via these lines to all the principal points of interest. The Denver & Rio Grande and the Rio Grande Western, with their numerous branches penetrating the great states of Colorado and Utah, have some forty different "Circle" tours through the Rocky mountains, one of which in particular is the famous 1000-mile tour for \$28.00, which comprises more noted scenery than any similar trip in the world, passing the following points of interest: La Veta Pass, Poncha Pass, Toltce Gorge, Indian reservations, Durango, Mancos Canon, Rico, Lizard Head Pass, Las Animas Canon, Silverton, Quarry, Cimarron Canon, Black Canon of the Gunnison, Marshall Pass and the Royal Gorge. This trip can be comfortably made in five days, but at least ten days should be devoted to it, so that one may view at leisure the principal sights. Tickets at very low rates are also on sale to Salt Lake City, Utah. If you contemplate a trip through Colorado or Utah, let us send you some beautiful illustrated booklets, free.

### DAILY THOUGHT.

"If we would end life well we must  
live well. It is the man without aim  
in life who fears death."

### THE WEATHER.

Cloudy tonight and Friday. Prob-  
ably local rains.

The salt trust is going to take a trip  
up that well known river.

Of all the trusts the salt trust could  
probably best be spared. Few people  
knew there was one until it busted.

The Democratic executive commit-  
tee of Michigan has selected L. T.  
Durand, a gold-bug, as a candidate  
for governor. Another nail in the  
late W. J. Bryan's coffin.

If Uncle Joe Potter were mayor  
of Paducah the cows would probably  
be provided with perpetual pastures  
at the city's expense. It is time he was  
accepting the call of some "many vot-  
ers," and announcing his platform.

A congressman is to be sent to  
Washington from this district in No-  
vember. If the labor people want a  
man who will not prove hostile to  
their interests they had better think  
well before they vote for the Demo-  
cratic nominee.

The Cuban house of representatives  
has passed a bill requiring that in all  
concessions made by the Cuban gov-  
ernment 80 per cent of the labor em-  
ployed shall be Cuban. This is a new  
tack. Surely the Cubans do not ex-  
pect to go to work!

With former Senator Hill running  
things in New York, and a gold bug  
nominated by Michigan Democrats  
for governor, it begins to look as if  
the late Mr. W. J. Bryan, Uncle  
Joe Potter and other prominent free  
silverites will have to get new jobs.

The British government has just  
made terms with Mr. J. Pierpont  
Morgan, the Yankee financier, in or-  
der to control a portion of the  
steamship business of the Atlantic  
ocean. Every day the proud Briton  
becomes more insignificant and his  
government less powerful when  
compared with great and growing  
America.

Rural free delivery should be ex-  
tended over the entire country. It  
costs nothing, and is a benefit that  
residents of the country do not fully  
appreciate until they come in direct  
contact with its workings. If they  
did fully appreciate it, there would  
doubtless be more rural routes. It is  
estimated that there will be 1,400  
routes in operation by next July.  
They keep the farmer in daily com-  
munication with the outside world, and

### insure good roads.

The people on the wild and pictur-  
esque outskirts turned out Monday,  
and voted the cow on the people down  
town who take some pride in their  
yards. Next time the latter will  
probably more fully appreciate the  
necessity of going to the polls to  
vote on such important public ques-  
tions. In the precincts down town,  
where most of the voters are against  
the cow, not a third of the full vote  
was polled, showing that the people  
remained at home.

There is no danger of any intelligent  
voter blaming the Republican party  
for the anthracite coal strike. If the  
cause of the strike were known, it  
would probably be found to be some  
person or persons well schooled in the  
Socialistic philosophy of W. J. Bryan,  
or some ne'er do well who lives at the  
expense of the hard working miners  
by fomenting strife between them and  
their employers. It may be that the  
strike is prolonged only as an effort  
to embarrass the Republican party on  
the eve of congressional elections, but  
it is destined to certain failure if it is.

Before any citizen of Paducah  
makes up his mind how to vote in  
November he should think how little  
the Democrats and the men they have  
named time after time for public office  
have done for the city, and how they  
have taxed the people and given them  
nothing in return. If they want a  
repetition they can get it by  
electing the Democratic ticket again  
this year. They are all alike. If the  
people want a change they must vote  
for the men nominated by the Repub-  
licans. In them is their only hope  
of building up the city. From the  
Democratic crowd there is nothing to  
expect except the usual incompetency,  
extravagance, high taxes, no improve-  
ments, no progress, and probably con-  
tinued bankruptcy. What The Sun  
says is not campaign buncombe or  
election talk. It is something that  
every well informed voter in Padu-  
cah knows, and can find charged  
publicly in the local Democratic  
press.

### LEFT BOOKS.

THIS COUPLE PREFERRED MAT-  
ROMONY TO SCHOOL  
BOOK LORE.

Sturgis, Ky., Oct. 2.—Some time  
before dawn Miss Ruby Wallace, who  
is attending the O. V. college here,  
and Mr. Clarence Martin, son of a  
prominent young farmer of near Bord-  
ley, also a student of college, eloped  
to Shawneetown, Ill., where they were  
married.

Nothing was known of the matter  
until an open window was found in  
the young lady's room this morning,  
and the absence of young Martin, who  
boarded in the same house with Miss  
Wallace, explained the nature of their  
flight. Miss Wallace and Mr. Martin  
had only been at the college six days  
before deciding to cut out prosaic  
books and try the blissful state of mat-  
rimony.

### ERNEST TURNED LOOSE.

JUDGMENT SUSPENDED ON CON-  
DITION HE LEAVE TOWN.

Ernest Ozment, who was fined \$100  
and costs and sentenced to fifty days  
in jail some time ago for a breach of  
the peace, served his jail sentence to-  
day and was taken before Judge San-  
ders.

The family promised to move from  
Paducah and take Ernest with them,  
and Judge Sanders suspended the \$100  
fine so long as Ozment remains away  
from Paducah. If he ever comes back  
it will be enforced against him.

### ALLEGES ABANDONMENT.

ALTA BROWN SUES T. J. BROWN  
FOR A DIVORCE.

Alta Elmina Brown against T. J.  
Brown, suit for divorce on grounds  
of abandonment. The petition states  
that the defendant deserted the plain-  
tiff several months after their mar-  
riage which occurred in July 1901,  
and they have since lived apart. She  
asks for an absolute divorce and the  
restoration of her maiden name, Alta  
Hall.

### REMAINS ARRIVE

Former Wealthy Pennsylvanians Was  
Brought to the City Last Night.

The Bodies Easily Identified and Will  
Be Taken to Tideouts for Burial.

Undertakers Fred Roth and Clifford  
Wilson returned last night on the J.  
B. Richardson with the remains of  
Messrs. L. L. Hunter and L. B. Mag-  
gill, the wealthy capitalists of Tide-  
oute who lost their lives in the City  
of Pittsburgh fire last April, and whose  
bodies were not found until day be-  
fore yesterday.

The bodies were discovered about  
thirty feet from the stern of the boat,  
covered with ashes and silt, and were  
easily identified, although not in a good  
state of preservation. The buttons on  
one coat showed that the garment was  
made by a Tideoute tailor, as they  
contained his name. The other's watch  
number proved his identity, as did a  
knife with name and address. The  
bodies were about two feet apart, and  
were taken out and placed in metal  
caskets by the undertakers.

Mr. R. C. Benner, who was au-  
thorized to take charge of the re-  
mains for relatives, went on to Cairo  
to meet Mr. Benton S. Magill, a brother  
to one of the dead men, and will  
probably come up tonight.

From the position of the bodies it  
seems probable that the two men took  
time to dress after the fire was discov-  
ered, and were suffocated before they  
could escape from the burning boat.

The remains will probably be ship-  
ped to Tideoute this evening or in the  
morning.

A Cairo special says: The position  
of the bones of the spinal column, one  
above another, would indicate that  
they were standing up when death  
came to them. They were in the ex-  
treme rear of the boat and when found  
were underneath some hog chains.  
The bones were gathered up and will  
be shipped to Tideoute.

The friends of the victims were ex-  
tremely anxious to recover the bodies,  
and it is said were prepared to spend  
a fortune in the search.

Hayes Dunning and William Line-  
gar, who made the discovery, have  
been in search for the remains for  
months, under pay of the relatives  
of the dead men.

Mr. Magill carried about \$50,000  
life insurance and Mr. Hunter car-  
ried about \$30,000, neither of which  
was paid.

### L. & N. MEETING POSTPONED.

THE DIRECTORS WILL MEET  
NOV. 5 BY ORDERS FROM  
THE EAST.

Louisville, Oct. 2.—Telegraphic in-  
structions received from New York  
caused the unexpected postponement  
of the annual meeting of the stock-  
holders of the Louisville and Nash-  
ville. The effect of the postponement  
is precisely the same as though the  
meeting had been held according to  
schedule, for the Belmont board re-  
mains in office until J. P. Morgan is  
ready to transfer control to the Atlan-  
tic Coast Line company. Had not in-  
structions been received to cause a  
postponement President Smith and  
Secretary Ellis would have cast the  
vote of the proxies they held for the  
re-election of the old board without a  
single change.

The following directors will con-  
tinue in office after November 5: Pres-  
ident Milton H. Smith, Attila Cox,  
John L. Helm and John Latherton.  
The Morgan-Atlantic Coast Line board  
will succeed all or some of the follow-  
ing: August Belmont, H. E. Garth,  
F. A. Horsey, Henry Hentz, G. M.  
Lane, W. G. Raoul and John I. Water-  
bury, New York, and Rudolph Ellis,  
Philadelphia. The four local direc-  
tors are all willing to hold on under  
the new regime.

### MURDER CASE CONTINUED.

The murder case against Jack Ab-  
bott, the Pope county man who killed  
Rip Faughan at Metropolis during the  
carnival there recently, was contin-  
ued at Metropolis until January next.

### RILEY WAIVED

The Reticent Burglar Held Over on  
Three Charges Today.

Josh Day's Clothes Were Misfits—Held  
for Mule Stealing.

James Riley, the white man arrested  
night before last by Captain Henry  
Bailey on a charge of breaking into  
two tailor shops and a saloon, waived  
examination on all three burglary  
charges this morning and was held to  
answer, being unable to give bond.  
Riley smokes many cigarettes and has  
nothing to say to anyone. His face  
always has an expression of stolid in-  
difference, and he rarely even smiles,  
no matter what is going on around  
him. He will talk to no one, and  
the officers have thus far been un-  
able to learn anything about him.

Josh Day is the name of a 16 year  
old Cairo negro who wore clothing  
made for a man weighing about 250  
pounds. The clothing, as told else-  
where, was stolen from Mr. Stanley of  
the Hinkleville road. Day grinned  
when asked in court this morning  
where he got them and replied that he  
"didn't buy them."

As he stole a mule and tried to get  
away with it at Mr. Davis', in the  
county, a few days ago, he was war-  
ranted for mule stealing, and waived  
examination, was held to answer and  
went to jail.

Will Jackson, colored, only recently  
back from the penitentiary, was fined  
\$30 and costs for beating his wife.

### FEMALE CONVICTS

Sheriff Potter Leaves This Evening  
for Frankfort.

There will Be Four Prisoners in the  
Crowd and Two Deputies.

Sheriff Lee Potter leaves tonight for  
Frankfort, Ky., with the three fe-  
male recently convicted in circuit  
court, and with George Huff, the thir-  
teen year old white boy arrested some  
time ago for breaking into a box car,  
who will be taken to the reform  
school.

Sheriff Potter will take Messrs. Wm  
Lydon and John B. Hobson as depu-  
ties. The three prisoners are:  
Lulu Starks, the peggish who shot  
at Hun Cannon on the city hall steps  
and came near killing Chief of Police  
James Collins, and who got one year.

Hattie Taylor, alias Pruett, colored,  
who stole clothing from Mrs. Gus  
Tate's, and got two years.

Lottie Hamilton, who got a pair of  
shoes at Cochran's and claimed that  
she was sent by another, was given one  
year.

Willie Forrest, one of the boys to be  
sent to the reform school, will not be  
taken for a few days.

### Rochambeau's Ill Fortune.

"It was on the unhappy island of  
Martinique that the king's grandfath-  
er, the Duke of Kent, won his spurs  
as a soldier. Prince Edward, as he  
was then, was given the command of  
the Seventh Fusiliers at Gibraltar in  
1791, but was soon afterward trans-  
ferred to Canada. In 1794 he sailed  
from Halifax to take part in the ex-  
pedition against the French islands in  
the Caribbean, and after many hard  
battles about the base of Mount Pelee  
captured Martinique from the valiant  
Gen. Rochambeau. Major General  
Prince Edward had the French colors  
struck and the British flag hoisted,  
and the gallant defenders were allow-  
ed the honors of war, marching out of  
the fort with their colors flying. They  
were shipped back to France, but the  
broken-hearted Rochambeau could not  
face home again, and went to America  
to die."—London Chronicle.

Will Revolutionize Cotton Trade.  
Egyptian cotton is being introduced  
in Texas, and promises to revolution-  
ize the cotton industry of the south.  
It is much more desirable than the  
cotton raised in the United States  
now, and is even better than the sea  
island cotton. The Egyptian cotton  
has much longer fiber than other cot-  
tons, and its seed can be removed so  
easily that it is not necessary to cut  
up the cotton in ginning it.

### CHANGE OF DATES

Lee Turner Will Not Be Here Next  
Saturday.

French's New Sensation Will Give  
Two Performances at Kentucky.

By cancellation of Lee Turner's date  
for Saturday French's New Sensation,  
the oldest boat show on the Ohio riv-  
er, has made engagement to give a  
matinee and night performance at The  
Kentucky Saturday. They carry 32  
people and will give a strictly first  
class polite vaudeville entertainment  
and this will be welcome news to  
many Paducahans, who have long  
desired to see this show but didn't  
like to go to the river. They will  
play at popular prices, 15, and 25c at  
the matinee and 50c at night for the  
best seats.

It will be the first time they ever  
played in an opera house except their  
own.

Lee Turner's company, on account of  
necessary changes in route, has been  
unable to make Paducah, but will  
probably come later.

### OLD CREMATORIUM FOUND.

Ancient British Burial Ground Discov-  
ered Near Reading.

What the absent-minded old lady  
called a crematory has just been dis-  
covered near Reading, says the West-  
minster Gazette. Twenty urns, con-  
taining calcined human bones, have  
been unearthed at Sunningdale, near  
Camberley. A mound was being re-  
moved in the construction of golf  
links, when three urns were discov-  
ered. Under the direction of Mr. A. C.  
Shrubsole, F. G. S., curator of the  
geological and anthropological depart-  
ment of the Reading museum, a fur-  
ther search was made, and seventeen  
more were brought to light. It is be-  
lieved by competent authorities that  
the mound was the site of an ancient  
crematorium—probably a battle-  
ground—in pre-Roman days. Some of  
the urns are one foot four inches in  
diameter. They are of ancient British  
make, and may safely be ascribed to  
the time before Britain came under  
the Roman influence. It is estimated  
that the burials must have taken place  
between 2,000 and 6,000 years ago.  
Some of the urns have been sent to  
the British museum, the Reading mu-  
seum, to Oxford and to the Louvre,  
Paris.

### TWO MEN OF PROMINENCE.

Author and Inventor Alike Deserving  
of Honor.

"I had got out my first book," said  
a Philadelphia author, "and it had  
passed the critics and brought me  
fame, when I took a trip into the in-  
terior of the state. I was at a private  
house when the editor of a weekly  
paper called upon me and spoke of  
my book in flattering terms and  
added:

"And now I want to meet an-  
other great Pennsylvania genius—  
one whom the world will soon be talk-  
ing about."

"What has he written?" I asked.  
"Oh, he's not a writer, but an in-  
ventor—has just invented the grand-  
est thing of the century and is as  
modest about it as you are over your  
book."

"And what is it, please?"

"Sir, he has invented a wire nose  
piece to prevent a hog from rooting  
up the soil, and I'll not only show you  
the man himself, but not less than a  
dozen hogs standing around and won-  
dering what in blazes has got into the  
rooting business."

### A Joke That Failed.

When Linley Sambourne, Punch's  
chief cartoonist, was a draughtsman  
at Penn's engineering works, his love  
for practical joking was irrepressible.  
There used to be a young French  
draughtsman in the same office, and  
one day "Sammy" conceived the idea  
of hooking down the French youth's  
hat and nailing it all around the  
brim firmly on the desk. When lunch  
time arrived all but the French youth  
were aware of the joke. He took  
down a hat off the pegs, placed it on  
his head and walked out. It was Sam-  
bourne's own hat he had nailed to  
the counter.

### Undiscovered Cuba.

After more than 400 years it ap-  
pears that Cuba has not yet been  
entirely discovered. Much of it and  
many of its treasures are yet un-  
known, according to the recent re-  
port made by Governor-General Wood.  
He says that after the centuries of  
Spanish occupancy there are large  
portions of the island that have never  
even been prospected, and practically  
remain undiscovered, so far as knowl-  
edge of what they contain goes.

### CAUSES FOR AVOIDING CHURCH

Long-Winded and Voluble Bishop

Found No Favor with a Child.

There is a certain bishop whose  
piety is unquestioned, but who has  
an unfortunate habit of preaching  
very long sermons. He has, besides,  
an exceedingly sonorous voice, and  
people living anywhere within a block  
of his church can hear him without  
taking the trouble to enter the sanc-  
tuary. A few Sundays ago he was an-  
nounced to preach at a popular church  
and the people who entertained him  
had a little daughter who was very  
fond of attending service. When the  
family got ready little Elsie flatly re-  
fused to go with them.

"I don't want to go to church," she  
declared.

"What's the matter?" asked the  
mother, much surprised, "are you ill?"

"I don't like the bishop," confessed  
the child.

"Oh, Elsie, that's a wicked thing to  
say!" gasped the mother.

"I hate the bishop," insisted the lit-  
tle one.

"Tell mother why," said the hostess.

"Well," said Elsie, confidently, "the  
bishop preaches so long that I can't  
keep awake, and he preaches so loud  
that I can't go to sleep." As the di-  
vine tells the story on himself, it's  
probably true.

### TO DEFEND THE USE OF ABSINTHE

Champions of the Deadly Drug Form  
Society in Paris.

Marvels will never cease! In spite  
of the general campaign against in-  
temperance and the abuse of alcoholic  
drinks, especially absinthe, a company  
has actually issued a prospectus in  
glorification of the green liquor.

It is called "The General Union for  
the Defense of Absinthe," and its ob-  
ject is to found in Paris, as well as in  
the provinces and abroad, centers for  
the purpose of combating the propa-  
ganda carried on against intemperance  
in general, and the consumption of ab-  
sinthe in particular.

A perusal of the prospectus leaves  
one wondering what madmen are  
these, but the cat is let out of the bag  
in the final clause, which refers to  
the "rational defense of absinthe and  
the interests it represents." The  
whole thing thus turns out to be a  
move on the part of manufacturers,  
who are seriously alarmed by the  
growth of the temperance movement.

### HE KNEW THE SYMPTOMS.

Dyspeptic Extends Hand of Friendship  
to Fellow Sufferer.

"Life is a failure," said the tired-  
looking passenger, in a grave and far-  
away voice. "Man is a fraud, woman a  
bore, happiness a delusion, friendship  
a humbug; love is a disease, beauty a  
deception, marriage a mistake, a wife  
a trial, a child a nuisance; good is  
merely hypocrisy, evil is detection.  
The whole system of existence—life,  
morality, society, humanity and all  
that—is a hollow sham. Our boasted  
wisdom is egotism; generosity is im-  
becility. There is nothing of any im-  
portance but money. Money is every-  
thing; and, after all, what is every-  
thing? Nothing. R-r-r-r!"

"Glad to meet you, sir," said the  
thin little man with the ginger-hued  
whiskers, extending his hand cordially  
to the speaker. "I have the dyspepsia  
pretty bad at times myself."

### Only Eleven Kinds.

"Speaking about the many kinds of  
climate to be found in California with-  
in a small area," said the Philadelphia  
man, "I had an instance of it a few  
months ago. I was visiting a friend  
on a fruit farm, and I went out one  
morning where he was at work on a  
shed and soon felt cold. He noticed  
me shiver and asked what was the  
matter.

"The air feels a bit winterish," I re-  
plied.

"Oh, I see. Better walk over to that  
tree."

"I walked over and found such a  
rise of temperature that I was mop-  
ping my brow inside of five minutes.  
He noticed it and said:

"I think I got stuck in buying this  
place. The seller warranted sixteen  
sorts of temperature within a mile  
of the house, but I can't make out only  
eleven."

### French Criticism of Golf.

"But your game of golf! Oh, yes! I  
know him. You put on the tunic and  
red, so red as the Inglesch roshif  
underneath. You strap your sack of  
banded head sticks on the back of a  
boy twice as small as the bag.

"He scrape a mud pudding to make  
balance a little white ball. He make  
three bad tries to balance him, then  
very angry you call loud, 'Four.'  
Then you what you call address the  
ball, and, my faith, your address some-  
times is of language to me be afraid.

"You strike, and the ball find him-  
self in the bonkaire. You call loud  
for the nibelungen stick, and beat the  
dust till your partner say, 'Ho! chuck-  
it.' You say—but, my friend, I ex-  
cuse myself to repeat what you say.

"Ah, my friend, you are a great na-  
tion, but your games—they give me  
what you call ze hump."

All kinds of Building

## COLONY LIFE.

EFFECT OF CLIMATE OVERCOME BY PROPER FOOD.

The necessity of pleasant, nutritive and proper food is highly appreciated in the Philippines, particularly by the Americans, unused to climate and native custom in cooking.

One of our soldier boys writes: "In this land of bad food and disordered stomachs a nearly fatal attack of malaria left my digestion for many months in such a state that food of any kind distressed me terribly. I suffered from the effect of drugs, but dared not eat. It was simply misery to live. The so-called remedies only seemed to aggravate my sufferings.

"Some friend suggested Grape-Nuts Food and I gave it a trial. To my surprise and pleasure, it did all and more than was claimed for it. I am now, after using the food for eighteen months, in good health; my digestive apparatus in perfect order, and I have long lost all feeling of pain or discomfort after eating. In fact, I live again. I would not be without Grape-Nuts for the world. It is not only the excellent effect of your food that renders it valuable, it is also delicious to the taste, possessing flavor of its own, and can be prepared in many ways to suit many palates." Name given by Postum Co., Battle Creek, Mich.

## BRILLIANT WEDDING

The Mocquot-Hart Nuptials Largely Attended Yesterday.

A Delightful Reception Followed at the Home of the Bride.

Charming in detail, and beautiful in effect, as well as a notable social occasion, was the wedding of Miss Adie Helen Hart and Mr. James Denis Mocquot at the First Presbyterian church yesterday afternoon at 4 o'clock. The church was artistically decorated in green and white. Palms, vines and white chrysanthemums being used with charming effect about the altar, while graceful arches of vines and chrysanthemums were at the end of the two aisles down which the bridal party passed. A large and fashionable audience witnessed the ceremony and there were a number of charming costumes in evidence.

To the wedding march, played by Prof. Harry Gilbert on the organ, accompanied by Miss Aline Bagby on the violin, the bridal party entered. The ushers Dr. J. Q. Taylor and Mr. Charles Rieke, Mr. Richard Rudy and Mr. Abram Weil leading, followed by the groomsmen, Mr. Edson Hart and Mr. David Flournoy. The bridesmaids Miss Mary Belle Maxwell, of Marion, Ky., and Miss Josephine Cooke, of this city, preceded the bride who came with the matron of honor, Mrs. Henry Weissinger, of Louisville. The groom and his best man, Mr. Henry Weissinger, of Louisville, met them at the altar, where the ceremony was impressively said by Rev. W. E. Cave, D. D.

The bride wore an elegant white crepe de chine gown over white taffeta silk, and carried lilies of the valley. She is very handsome and stately and looked especially charming. The matron of honor was very pretty in a cream veiling and taffeta silk costume and hat, with American beauty roses. The bridesmaids were in artistic cream batiste gowns and picture hats and carried American beauty roses.

The bride is the eldest daughter of Captain George O. Hart and is a most charming and talented young lady. She is loved by a host of friends and her delightful voice has given pleasure to many.

Mr. Mocquot belongs to one of Paducah's most prominent families and is a leading young lawyer of the city. He is very popular socially and a leader in Christian work.

The wedding ceremony was followed by a reception at the Hart home on West Jefferson street, which was a most delightful occasion.

The house was charmingly decorated in plants and flowers, each room being especially attractive. In the reception hall Mr. and Mrs. George O. Hart, Mrs. Mary Harris, Mrs. Louis M. Rieke and Mrs. W. E. Cave, graciously welcomed the guests.

The bridal party received in the parlor, assisted by Mr. and Mrs. George B. Hart, Mrs. Florence Mocquot and Mrs. Charles Hinkle.

Delightful refreshments were served in the dining room by Mrs. Mary Watson, Miss Ruth Weil, Miss Myrtle Decker and Miss Helen Decker.

A large number of guests called during the hours to give congratulations and good wishes.

Mr. and Mrs. Mocquot left at 6 o'clock for an extended bridal trip that will include New Orleans, New York and Washington City.

## ELECTRIC CAR TRAGEDY.

## THEATRICAL NEWS.

French's Sensation is now in the city and will be here for several days, the boat towing it, the Little Clyde, to go on the ways.

The Lyman twins, in "A Merry Chase," was presented last night to a fairly large audience at The Kentucky, and gave satisfaction. It is a farce-comedy with a good many laughable situations, but there is no notable talent in the company. Mr. Harry Blanchard is about the best in the cast as David Stubbs, a gay old boy. The Lyman twins are fairly good comedians, and good dancers. There are seven members in the company, and taking everything into consideration the performance was satisfactory.

## BOYS ELECTROCUTED.

ONE REACHED ON A LIVE WIRE FOR HIS CAP—THE OTHER TOUCHED HIM.

New York, Oct. 2.—Within sight of his father and 2,000 persons Richard Houser and his nine year old companion, Freddie Pepolo, of Woodhaven, L. I., have been killed by an electric current. Pepolo had climbed to the top of the iron pole to recover his hat, which had caught on the wire and was slowly being burned. As he reached for the cap his arm came in contact with the wire. The shock passed through his body, killing him instantly and forming a circuit between the pole and the wire. Young Houser, believing his comrade only stunned climbed up the pole to release him and carry him to the ground. When he reached the top he placed his arm around the body, holding fast to the pole with the other hand. The current from the body passed through him, forming a second circuit with the pole. The bodies were badly burned before the current could be shut off.

### IMPORTANT DECISION.

THAT LAEVISON'S PALE ALE AND IRON-TONE ARE NON-INTOXICATING.

Another victory has been scored by the A. M. Laevison bottling works regarding their mild drinks. Mr. F. Melton, the well known merchant of Mayfield, Ky., who has been handling "Iron-Tone" and "Pale Ale," manufactured by A. M. Laevison and Co., was tried before Judge Webb, of Mayfield, day before yesterday on the charge of dispensing intoxicating liquors in violation of the local option law. After hearing the evidence and testing the "Pale Ale" and "Iron-Tone," Judge Webb immediately dismissed the case, and informed Mr. Melton the drinks were non-intoxicating and he could sell them at his pleasure. This is further conclusive proof added to the heretofore favorably rendered decisions holding Laevison's drinks non-intoxicating.

In order to provide a sufficiency of excellent attractions two carnival companies have been combined and will appear jointly on the grounds, viz., the Bstock company and the Robinson company. Invitations have been extended to the Elks of Kentucky and Southern Indiana to take part in the festivities. Friday of that week has been dedicated to the aspirants for state offices, a great many of whom have already signified their intention to be present.

The value of the race this season will be \$6,000, and as it is looked upon as the greatest of all trotting classics, lending a lifetime reputation to its winner, the honor of winning it is keenly coveted by all horsemen and drivers. ### GARMENTS GAVE HIM AWAY.

GEORGE DAY, COLORED, IN JAIL ON A CHARGE OF BURGLARY.

Josh Day, colored, was arrested yesterday afternoon late by Sheriff Lee Potter on a charge of housebreaking. He is alleged to have gone to the home of Mr. George Stanley, on the Hinkleville road, and stolen some clothing. Day is a medium sized negro, while Stanley weighs over 200, and after stealing Mr. Stanley's clothing and donning them, it was a dead give away and the thief presented a most ludicrous appearance when he showed up in the railroad camp near Maxon's Mills. He was easily found by the officer. Day, after being arrested, confessed that he is the negro who hitched up the horse and attempted to steal a rig at Mr. Thomas Davis' farm a few days ago, being forced to abandon it, however.

### 1000 CLAIMS.

EQUAL NOT A SINGLE FACT, PADUCAH ENDORSEMENT MAKES THIS CLAIM A FACT.

Endorsed by scores of Paducah citizens who cheerfully make a public statement of their experience, is the proof we have to back our claims that Doan's Kidney Pills cure every form of kidney ills, from a common backache to serious urinary disorders. Here is one local example. We have many more like it.

Mrs. C. H. Wilson, of 525 South Fourth street says: "My father died with Bright's disease and knowing what he suffered I was continually anxious about my own condition particularly so when I suffered untold misery for years with backache and kidney complaint. I have had attacks that compelled me to keep my bed for weeks and no matter how comfortably my surroundings the mattress seemed like a bed of rocks, and every movement I made felt like a dagger was piercing me in the kidneys. The worst attack I ever had was just previous to sending to DuBois and Co's drug store for Doan's Kidney Pills. I actually collapsed, there was swelling plainly visible across my loins and the aching was excruciating. When a few doses of Doan's Kidney Pills gave me relief I could only call the help a Godsend. A continuation of the treatment disposed of the last attack. I eat well, sleep better and at present am in the best of health. Send anyone to me for minutest particulars about my experience with and opinion of Doan's Kidney Pills." For sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

### THE RIVER NEWS.

Observations taken at 7 a. m. River 3.4 on the gauge, a rise of 0.5 in last 24 hours. Wind east, a light breeze. Weather cloudy and cooler. Temperature 62. Pell, Observer.

The Clyde will arrive from Tennessee river tomorrow.

The Ten Broeck departed this morning for Tennessee river for ties.

The Buttorff will leave today for Cumberland river, the first trip up since the rise.

The I. O. K. has gone to Cairo and from there will make a trip down the Mississippi river trading.

The wreck of the R. A. Speed opposite the city has nearly been covered by water again.

The Clifton arrived today from St. Louis on her first trip up the Tennessee since the rise.

The Wilford cleared for Cumberland river yesterday. She had been laying here awaiting the action of the court in a libel claim.

The Memphis left for Tennessee river early this morning. She was due to leave last night but could not get away in time.

The Richardson cleared for Cairo this morning on time and with a good trip. She carried the Merry Chase Co. to Cairo where it will tonight play.

The Maude Kilgore went into Tennessee river today for ties. She had been cleaning boilers for the past several days and is in excellent condition.

The Jim Duffey will go into Tennessee river immediately for ties. She is having an electric light plant placed on her and will be ready to go out within a few days.

The Penguin arrived yesterday from Tennessee river with the Victor's tow and went down to Joppa to unload. She returned today and will immediately go into Tennessee river again for ties.

The Margaret arrived from Cairo this morning and will be placed on the docks or ways immediately for repairs. The boat is a good one and the latest addition to the already large fleet of the Ayer and Lord Tie company.

The Boaz, which is aground at Grand Chain, will probably float off today if the rise is sufficient. She has been grounded for several weeks. The water is now nearly high enough to float her off and with a little steam power will probably do the work today.

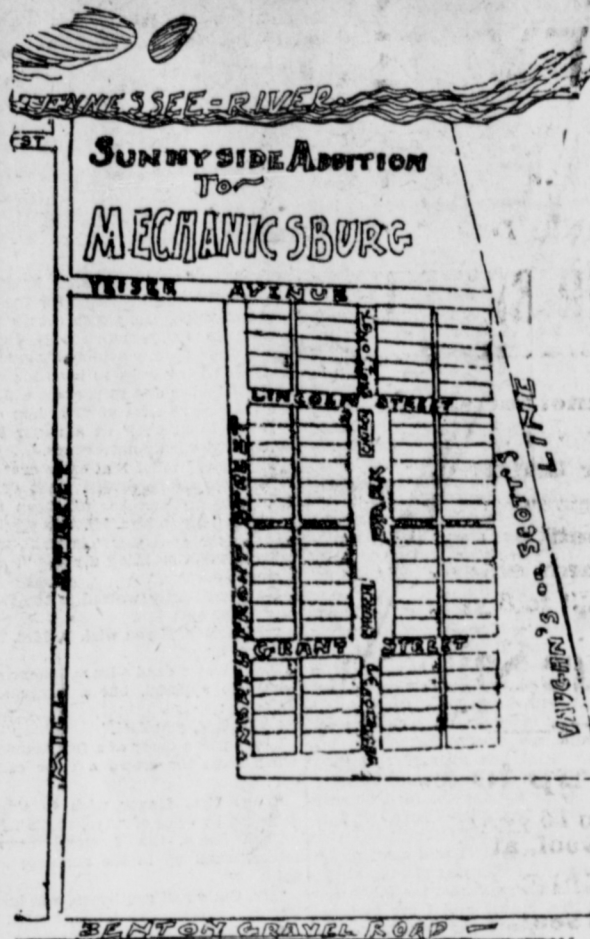

The steamer Fritz, from Cairo, is working at the lower incline with a sunken barge. She worked with the barge once before but failed to raise it. The Fritz has been at the Grand Chain where the Boaz is grounded keeping the drift away and warding off danger that might arise before the big tow-boat.

Mr. Mose Starr has launched his boat and she will be ready for service within a few days. The boat was formerly the "Doctor," a small gasoline boat, and Mr. Starr purchased it several weeks ago and will use it for hunting purposes in the winter and for a pleasure craft in the summer. He will probably take a trip down the Mississippi river next summer if not sooner.

Captain William Clarke, the owner and proprietor of the steamboat Bill Clarke, was arrested in Cincinnati Monday by Deputy Marshal Huwe, on information filed against him by District Attorney Bundy. It is alleged he violated the navigation laws last August by operating his boat with but a single engineer while running over twelve hours a day. The law requires that there must be two engineers in such cases. The prosecuting witness is John M. Wright, who was engineer of the boat when the offense is alleged to have been committed. Captain Clarke was held in \$500 bail to appear before the United States Grand jury next week.

"The time for river men to act vigorously" said Captain J. F. Ellison, "in the movement to improve the Ohio river is right now. Through the good offices of the Ohio Valley Improvement Association, the movement has assumed a form that will allow of a vigorous action in the matter. Every statesman, from the president down to the members of congress in the river districts, is favorable to the movement. However, the plan to improve the river with dams alone does not look as good as the storage system along with it. The article in the Commercial Tribune a few days ago on the damming of the Nile by the storage system, in which it was stated that the system was a success, was
